Personal Health Record (PHR) – FAQs | Aetna

What is a Personal Health Record? Your Personal Health Record is a private and secure online tool where you can keep your health information. It includes information from Aetna claims and that you enter yourself.

Personal Hub | St. Joseph Health

The patient portal is a secure, convenient way to manage your personal health care online. This FREE self-health management tool can document important health care information, and ultimately give you the ability to make more informed decisions about your health.

Health Center

Manage your health information from all providers in one location. Share your information with caregivers and family members. Communicate securely with your doctors.

Health Benefits Manager

Viewing your earnings history, adding and enrolling dependents, paying your health premiums, and printing your health care ID cards has never been easier.

Personal Health Information Protection Act

Personal Health Information Protection Act; An Ontario Act to establish consistent rules governing the collection, use and disclosure of personal health information in the hands of 'health information custodians', such as doctors, hospitals or other health care providers.

For you and your family | My Health Record

What is My Health Record? My Health Record lets you control your health information securely, in one place. This means your important health information is available when and where it's needed, including in an emergency. Start using your My Health Record: Log in to your record for the first time Control your privacy settings

Start using your record | My Health Record

Once you have accessed your My Health Record online, it's time to start setting your preferences. What to expect When you log in to your new My Health Record for the first time, there may be little or no information in it. Your previous medical history such as older test results and medical reports will not be in your new record. There may be around two years' worth of Medicare/PBS claims ...

PATH

PATH is a unique new way of improving the health and wellbeing of your employees. PATH's personal, impactful journey will reduce costs while increasing productivity.
