17 KW Honeywell Automatic Standby Generator "Exercising"

I installed this generator about a month ago. It is a 17 KW Honeywell with a ATS and runs on natural gas. It is programmed to to "exercise" bi-weekly to keep the 990 cc V-Twin lubed up.

Generac Power Systems

An automatic standby generator is a back-up electrical system that operates whether you are home or away. Within seconds of an outage, it automatically supplies power directly to your home's electrical circuit breaker box. After utility power returns, the generator shuts itself off and waits for the next outage.

16 kW / 20 kW / 22 kW

Constantly monitors generator voltage to ensure the cleanest power delivered to the home. Prevents nuisance start-ups of the engine, adjustable 2-1500 seconds from the factory default setting of 5 seconds by a qualified

dealer.
