Art Therapy For Children | Helping Children With Art Therapy

Art therapy for children can provide kids with an easier way to express themselves since children are more naturally artistic and creative. A young child is likely to be more comfortable initially expressing him/herself with some crayons and markers, for example, than he/she is going to be at expressing emotions and feelings through words.

Sources of Ideas for Art Learning

Since art is a complex matrix of overlapping and interwoven concepts, there are numerous ways to approach

learning in art. Contrary to many disciplines, I would not want to claim an essentially linear sequence that must be followed in learning art.

Transactional analysis

Transactional analysis (TA) is a psychoanalytic theory and method of therapy wherein social transactions are analyzed to determine the ego state of the patient (whether parent-like, child-like, or adult-like) as a basis for understanding behavior. In transactional analysis, the patient is taught to alter the ego state as a way to solve emotional problems.
