## **Notebooks of the Mind: Explorations of Thinking**

Adding these personal accounts to laboratory studies of thought process, John-Steiner takes a refreshingly holistic approach to the question of creativity. What emerges is an intriguing demonstration of how specific sociocultural circumstances interact with certain personality traits to encourage the creative mind.

## **Notebooks of the Mind**

How do creative people think? Do great works of the imagination originate in words or in images? Is there a rational explanation for the sudden appearance of geniuses like Mozart or Einstein? Such questions have fascinated people for centuries; only in recent years, however, has cognitive psychology been able to provide some clues to the mysterious process of creativity.
