

Download Roper Whitney Autobrake 2000 Manual

AutoBrake Archives

The Autobrake 1212 provides accuracy and repeatability when forming 12 gauge mild steel and 16 gauge stainless steel. It features the rotating Kombi beam, which expands the machine's folding capabilities to produce straight to box and pan bending in just 11 seconds. The box tooling is 6.3" in height, precision ground and laser hardened to 60.
