

Download Yushin Robots Maintenance Manuals

Our Services

In addition to on-site maintenance and service, Yushin America's Service Dept. offers in-house repairs of hand-held controllers, touch screens and different robot components. Just contact us for a repair quote and then ship your defective components to Yushin America's headquarters in Rhode Island for fast, Yushin-certified service.

Our Robots

Robots that have the future interests of the molding industry in mind It used to be a dream that vast numbers of people could use the same product and similarly enjoy the same benefits. Then, plastic engineering miraculously made that happen. Since the advent of injection molding, industry has incessantly pursued better products of better quality at a faster clip.

Operational Training

'Knowledge is power' - a quotation not written about automation robots, but true nonetheless. Equip your staff with the right knowledge and see their ability and efficiency increase with our Operational Training courses.

Providing Automation for the Plastics Industry

Yushin has come a long way since selling its first robot in 1978. We innovated the use of servo motor drive and advanced, touch-screen controls in take-out robots – bold improvements which dramatically boosted the speed, accuracy, and usefulness of our robots.

Yushin Robots Automation and End of Arm Tooling

Servo Robots. Yushin's high-end line of full-featured servo take-out robots, the RC series was conceived to incorporate speed, reliability, and savings. RC series robots also benefit from the powerful E-touch II controller.
